PROFILE

Computer Science graduate with a strong foundation in front-end development, specializing in HTML, CSS, JavaScript, and React.js. Passionate about building user-friendly web applications, I am currently expanding my expertise in backend technologies like Next.js, Node.js, Express.js, and MongoDB. Eager to contribute my skills to innovative projects and add value to a dynamic team.

Html
Css
JavaScript
ReactJs

Backend Development

NodeJs
NextJs
Mongodb
ExpressJs

PROJECTS

AI Powered Legal Aid Assistant

2024 – 2025

Co-developed with Ahsan Raza, sharing responsibilities in frontend, backend, and overall project execution.

The project provides AI-powered legal responses with secure user authentication using NextAuth, JWT, and OAuth. It features a responsive UI built with Tailwind CSS and ShadCN, along with a secure API for handling queries. MongoDB is used to store user interactions efficiently.

Fitness Fusion

2023 – 2024

A modern and interactive gym website built with HTML, CSS, and JavaScript.

The website covers fitness programs, membership plans, and a gym gallery. It includes a BMI calculator, diet plans, and trainer details. Users can subscribe, register, and explore gym facilities easily.

Personal Portfolio

2024 – 2024

A sleek and modern personal portfolio website built using HTML, CSS, and JavaScript.

The website is fully responsive with a mobile-first design, ensuring seamless adaptation across all devices. It features smooth scrolling for effortless navigation and a user-friendly UI. Light & Dark Mode allows easy theme switching for a personalized experience.

CERTIFICATES

- Web Engineering UNDER THE PROJECT OF IT INDUSTRY READINESS BOOTCAMP PROGRAM
- NATIONAL FREELANCE TRAINING PROGRAM in Technical Domain.
